RE: COO215699

Quarterly Report for the Period Ending... September 30, 2014

To the best of my knowledge, this quarterly Federal Election Commission (FEC) report is true, correct and complete as it pertains to contributions and disbursements for the dates covered.

However, there remain errors in the cycle-to-date figures dating back to 2007, which are due to the embezzlement of Committee funds, and the alteration and/or destruction of records by a former campaign employee.

This matter was reported in detail to the authorities and is under review by the FEC.

Christopher Shays, Treasurer
Christopher Shays for Congress Committee
